Images of students are an integral part of the school curriculum. In general, student images are used to
• Record student participation at school and in school events
• Celebrate student effort and achievement
• Promote the school and events held by the school.

At Bolinda Primary School we like to celebrate the efforts of our students by mentioning their participation in school events in our newsletter. On occasion photographs of the students are included. Class activities, students work and performances are photographed or recorded on video. We also use photographs of students in our school's marketing. Digital images of students, activities and performances are saved on the school intranet.

_It is most important that this form is returned as soon as possible._

We have 24 families in the school, 14 have so far been returned. _Still 10 to go._

**CONGRATULATIONS TO ALL STUDENTS WHO RECEIVED AN AWARD!**
