Vasili’s Garden offers you everything you need to know about creating a healthier and sustainable lifestyle for you, your friends and family. Bringing back the ways of life that people throughout the world have been living for hundreds of years, growing and preparing their own food for their family and friends. Its our passion to share the wealth of good gardening and good living knowledge, that has been handed on through generations of wonderful people, recognising the life stories of families and individuals who we hope will inspire you to take up and continue traditional ways of living and eating.
